COMP 3071	Designing Intelligent Agents	57			20	Spring Malaysia

Average Mark : 62

Please note: **Date Issued: 10/07/2024**
- Any marks for full year courses may be incomplete at the current time.
- The Average Mark shown for each Academic Year is an average of the marks awarded for the first sit of the course rounded for display purposes. The averages do not include any reassessment marks.
- While used for progression, reassessment marks are not used for overall award classification where the stage average mark truncated at the first decimal place is used in the overall mark calculation.
